seat post	'CUDA INFINITE ADJUSTABLE, SILVER ANODIZED, 330mm	
color	TEAM GOLD/WHITE under CLEARCOAT	

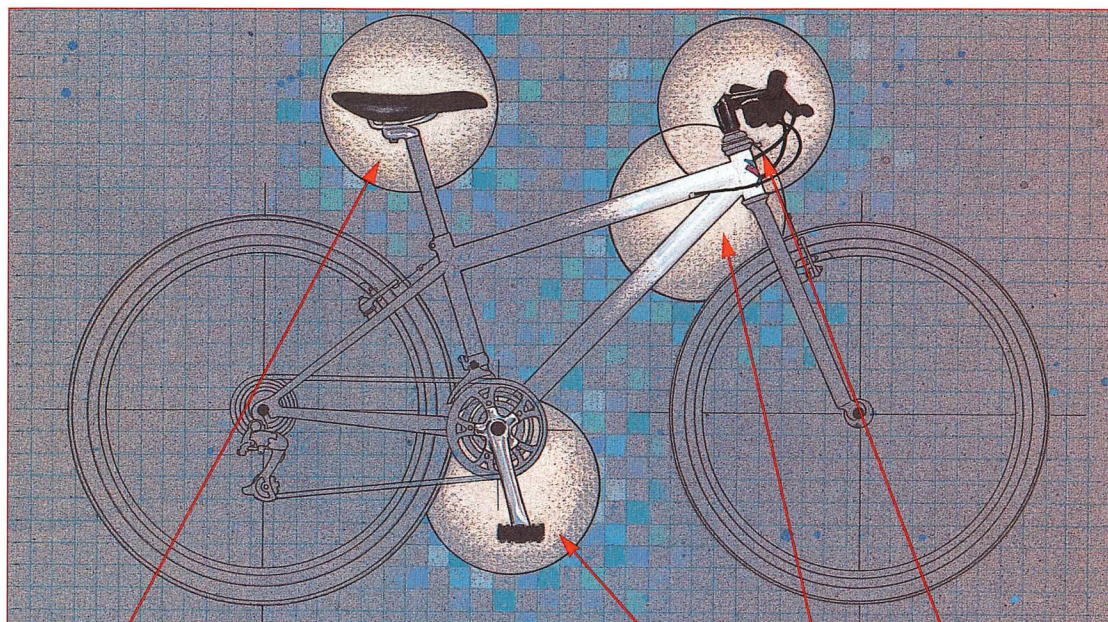

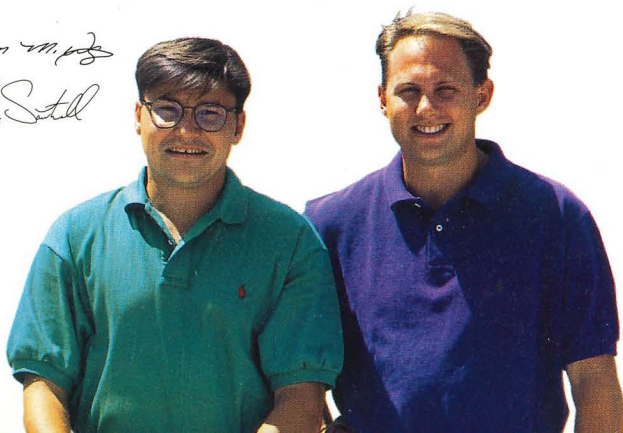

A SIZEABLE DIFFERENCE

The right bike. The right fit. Two years ago, we started this company on the idea that bikes are fun. So we designed bikes that let you have fun. We started with proportional sizing, so the bike fits you, not vice versa. We used the best materials and components, and put them together with exceptional craftsmanship, so the bike will last. And we backed every one with a lifetime warranty.

But Barracuda is more than the bikes we build. It's also about the trails you ride, and some that you may never ride, because someone else destroyed them.

We're committed to preserving our environment for the next generation. So they can have fun on Barracudas, too.

Jonathan M. P.
Dan R. S.

GET TO THE SEAT OF THE PROBLEM Choose from three saddles for a custom-fit: the 'Cuda 200ti, 'Cuda CR225, and the Terry saddle, each designed specially for your riding needs. **PEDAL TO THE METAL** Finetune the sizing of your Barracuda with a crankarm length that fits your body and your bike. **THAT'S ABOUT THE SIZE OF IT** Barracuda's proportional sizing recognizes that riders come in all sizes. So do our bikes — from 12 to 19 inches. **RISE TO THE**

MOUNTAIN BIKE FRAME GEOMETRY

Size	12"	14"	16"	18"	19"
Seat tube angle	73.5°	73.5°	73.5°	73.5°	73.5°
Head tube angle	70.5°	70.5°	70.5°	70.5°	70.5°
Top tube length	21.5"	22"	22.5"	23"	23.5"
Chainstay length	16.38"	16.38"	16.38"	16.38"	16.38"
Stand over height	24.5"	26.5"	28.5"	30.5"	31.5"

OCCASION For every 12- and 14-inch model, Barracuda's unique ZeroRise stem assures correct riding position by allowing the handlebars to be at or below the level of the saddle. Positive 10° rise stem is available for larger models.

The strongest tubing from start to finish.

Bare steel. For strength. Three-stage finish. For durability. Because nothing less is acceptable. Barracuda's proprietary DiHedral tubing is designed with a unique shape that gives each frameset unsurpassed directional stiffness and torsional rigidity, and then finished to perfection.

A²T

SHIPROCK. ERIC SAKADINSKY RIDES THE HIGH DESERT IN NEW MEXICO.

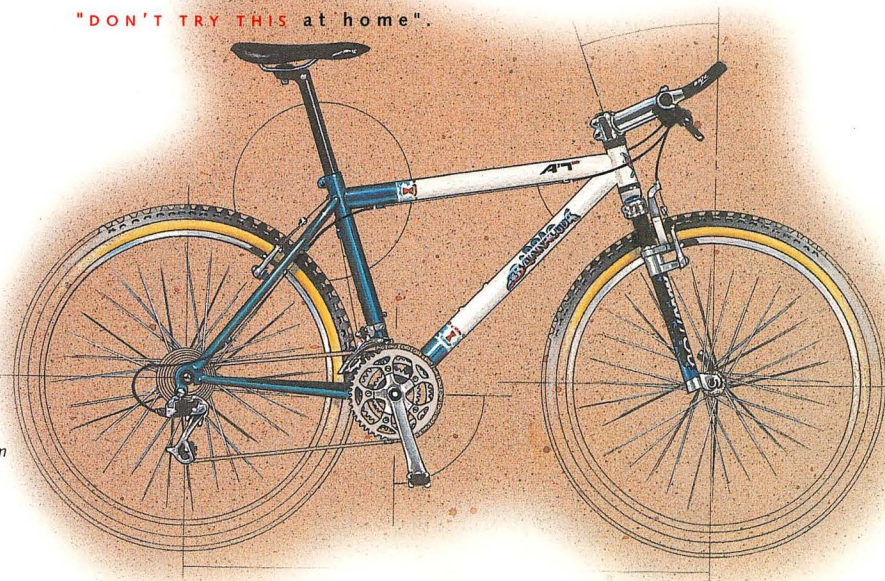

ANYTHING BUT TAME. Saddle up an A2T and feel the spirit of the bike drive you to **DARE.**

Treat those gear-grinding, mud-soaked trails like a

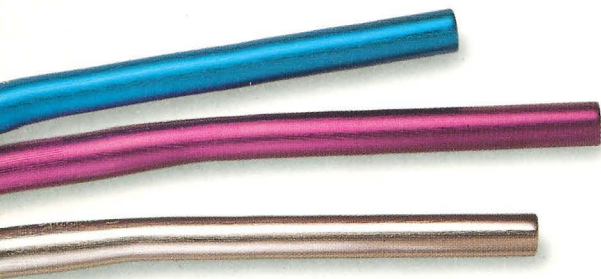

Sunday ride and warn all who trek on lesser bikes

"DON'T TRY THIS at home".

HARDWARE MADE EASY

Barracuda's true colors ↑

Sure, we take our proportional sizing seriously. But that doesn't mean you can't have a little FUN, too. **NEW** for 1994, Barracuda brightens your bike. Customize your 'Cuda with handlebars in a choice of anodized colors: silver, purple or blue.

← You've really got a

hold on us Get a grip

at the end of

this rain-

bow

with

'Cuda Team Grips,

custom-made from **NEWTRON™** rubber with a dual textured surface for the best grip.

Smooth Moves ⇒

It's anything but the old pump and grind.

Barracuda's suspension bikes come

equipped with **MANITOU** forks. Like the

Manitou 3 on the A2X and A2T. Two inches

of travel. **MORE STIFFNESS** and less flex.

Elastomer shocks swallow the big bumps

and high dives without a fuss. Easton

Taperwall Aluminum inner legs with Teflon®

finish lighten the load and keep things

running smoothly.

↓ Seat yourself

Get to the bottom of a comfortable ride.

Barracuda offers a choice of saddles to

cushion the blow. The standard (but

our standards are high!) 'Cuda

CR225 can be replaced with the

'Cuda 200ti with **TITANIUM** rails. Or,

equip your 'Cuda with the **GEORGENA**

TERRY saddle. Designed for the

female **ANATOMY**, it replaces the

unyielding plastic form in the nose

with a soft, forgiving foam in the

suspension design.

↓ Steel design 'Cuda CRO-MO stem

is ready for Ahead Set style forks in

90, 110, 130, and 150mm lengths.

Available as either 10° positive rise

or ZeroRise (10° negative).

High strength/Low weight ↓

'Cuda alloy stem comes in 90, 110,

130, and 150mm lengths for Ahead

Set style fork. The dual position

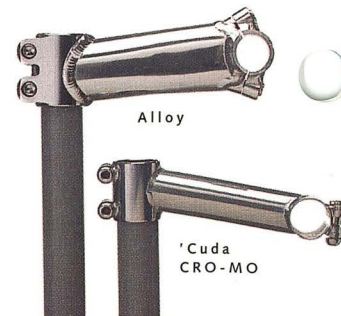

stem gives you a choice of either a

10° positive rise or ZeroRise (10°

negative)

for the

right fit.

Comp is designed to obliterate

the competition. COMPLETELY.

Cuda
COMP

WHERE 'CUDAS COME FROM

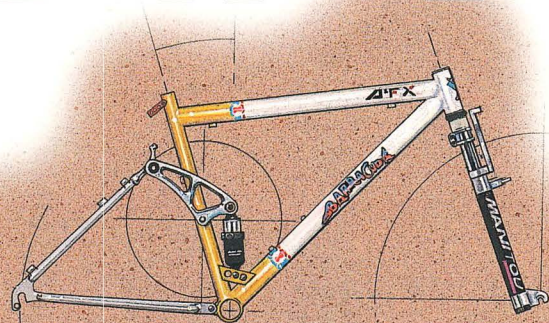

To build a great bike, start with a great frame-set. Every Barracuda — from the upstart A2B to the extreme A2X — is built of the same proprietary DiHedral® tubing. Strong, durable, and lightweight. Joints are meticulously mitered to perfection and flawlessly tig-welded. That's the

beauty of the beast.

After a three-stage paint process, including primer, paint, and a durable clearcoat finish, the frame is pronounced a 'Cuda. The **LIFETIME WARRANTY** kicks in. And just to be sure your 'Cuda is a perfect fit, we pay for a tune-up 30 days after you buy it.

Because only the best will do. For you. For us.

A²FX

A2FX As in **XTRA-SPECIAL** effects. Total suspense. Totally driven. Barracuda's new **DUAL SUSPENSION** bike with rear

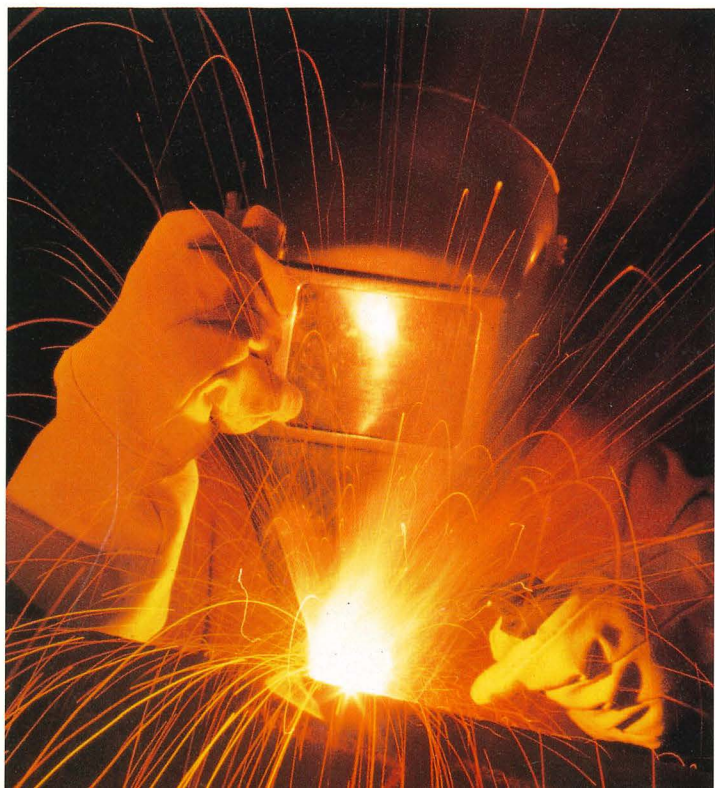

actuation arms. Crafted

EASTON GOES WEST.

Easton Aluminum meets the Barracuda from Colorado. The result is a Barracuda design, custom manufactured for Easton O/S tubing. Suspension-ready. Frameset only. A legend in the making, made by a legend.

of Tange Prestige O/S tubing, with Easton Aluminum bringing up the rear triangle. And **PUMPED UP** with a Manitou fork.

CREATURE COMFORTS

← The 'Cuda tee

It's cool, comfortable, and 100% cotton. The back of this tempting tee carries the colorful mark of the "TOTALLY DRIVEN" 'Cuda. The front bears the company logo. Available in short- and long-sleeve styles. Made in the U.S.A.

↑ Keep it bottled up

Who knows more about water than fish? Barracuda's water bottles look great and can be more filling if you choose the large size. Also available in a more compact size for limited libation.

↓ News to you

It's hot. It's now. It's free. Barracuda's quarterly newsletter, THE FISH 'RAPPER, keeps you up-to-date on all the news that's FIT to print

about 'Cudas — the race team, product news, and sneak previews. Lifetime subscription comes with the Barracuda lifetime warranty (both free when you buy the bike).

A²B

To be, or NOT to be. The answer is A2B. The breakthrough bike for the off-road newcomer.

MAKE A COMMITMENT

SOME THINGS ARE MADE TO LAST.

Like Barracuda. The lifetime warranty that comes with each bike is our commitment to you, the rider.

But while the Barracuda you ride is DESIGNED TO LAST A LIFETIME, the trails you ride on are not. Cyclists with momentary lapses of respect for the environment are causing irreversible trail erosion. And no

warranty can prevent the destruction of these valuable resources.

Mountain biking can only thrive in its natural habitat, so Barracuda is making a commitment to preserve the environment. When you buy a Barracuda, we'll make a

contribution to the TREE AMIGOS CENTER which supports environmental education, conservation, and reforestation.

After all, if there's nothing left, where are you going to ride?

For more information on Tree Amigos, call 616 771-3935.
